## DIRECTOR'S NOTE OF INTENT

In the reeds  
a sad bird sings  
as if he remembered something

It was better to forget

*"Ki no Tsurayuki "*

Watching "The Traveler" by Abas Kiarostami as a teenager changed my perception of cinema. it was nothing like what i had seen before. The story of the film and the photographer boy was in my mind for years. I thought that man and everything that surrounds him was created in such a way as to give meaning to the word "suffering".

to Pass through this abyss, maybe he should find a way to enjoy this endless suffering.

"Gadouk" is an experience that is based on this view.
